To
Lord Shiva, who has given us strength,
knowledge and wisdom to write this book
and
Late Sushil Kumar Sarkar (father)
Kanak Prava Sarkar (mother)
Mitra Sarkar (wife)
Prasenjit Sarkar and Pramit Sarkar (son)
Priyanka Sarkar (daughter-in-law)
Ronel Sarkar (grand son)
Contents

Preface xv

1. Introduction to Transportation Planning 1–10
   1.1 Introduction 1
   1.2 What is Transportation Planning? 1
   1.3 Aims and Objectives of Transportation Planning 2
   1.4 Interdependence of Land Use and Transport 3
   1.5 Transportation Problems and Issues in Indian Cities 3
   1.6 Policies for Urban Transport Planning 5
   1.7 What is the Transportation Planning Process? 5
   1.8 Technology Applications for Planning 8
   1.9 Levels of Planning 8
   1.10 Citizen Participation 8
   Summary 9
   Review Questions 9
   References 9

2. Study Area 11–17
   2.1 Introduction 11
   2.2 Zoning System 11
   2.3 Identification of Screen and Cordon Lines 13
   2.4 Transport Network 14
   Summary 16
   Review Questions 17
   References 17

3. Transportation Planning Surveys 18–30
   3.1 Introduction 18
   3.2 Secondary Data 18
      3.2.1 Inventories of Existing Conditions 19
   3.3 Traffic Surveys 21
      3.3.1 Road Inventory Data 22
      3.3.2 Classified Traffic Volume Survey at Outer Cordon, Mid-block and Screen Line 22
      3.3.3 Origin and Destination (O-D) Survey 22
      3.3.4 Household Travel Survey 24
Contents

3.3.5 Speed and Delay Survey 26
3.3.6 Parking Survey 26
3.3.7 Pedestrian Survey 27
3.3.8 Bus Transport Survey 27
3.3.9 Intermediate Public Transport (IPT) Survey 27
3.3.10 Establishment Survey 28
3.3.11 Goods Survey 28
Summary 29
Review Questions 30
References 30

4. Travel Demand Forecasting Techniques 31–43

4.1 Introduction 31
4.2 Demand Forecasting Techniques 33
  4.2.1 Sequential Models 33
  4.2.2 Simultaneous Models or Direct Demand Model 34
4.3 Other Forecasting Models 36
  4.3.1 Aggregate Models 36
  4.3.2 Disaggregate Models 36
  4.3.3 Land Use-transport Models 36
  4.3.4 UMOT Models 37
  4.3.5 Quick Response Techniques 39
4.4 Household Activity Travel System Analysis 40
Summary 41
Review Questions 42
References 42

5. Trip Generation Model 44–63

5.1 Introduction 44
5.2 Types of Trip 45
5.3 Factors Influencing Trip Generation 45
5.4 Trip Generation Models 46
  5.4.1 Method of Trip Rate 47
  5.4.2 Trip Generation by Regression Analysis Technique 48
  5.4.3 Category Analysis 58
Summary 60
Review Questions 60
References 63

6. Trip Distribution Models 64–112

6.1 Introduction 64
6.2 Growth Factor Models 64
  6.2.1 Uniform Factor 65

8.5 Mode Choice Modelling: Case Study 142
Summary 157
Review Questions 157
References 157

9. Traffic Assignment 159–180
9.1 Introduction 159
9.2 Earlier Models 160
9.3 Traffic Assignment Techniques 160
9.3.1 Tree Building Technique 161
9.4 Assignment of Vehicle Trip Interchanges between Routes 168
9.4.1 All-or-Nothing Assignment 168
9.4.2 Capacity Restraint Assignment 170
9.4.3 Incremental Traffic Assignment 172
9.4.4 Diversion Curve Techniques 173
9.4.5 Multipath Assignment 174
9.4.6 User Equilibrium (UE) Assignment 176
9.4.7 Dynamic Assignment 177
9.4.8 Probabilistic Assignment 177
Summary 178
Review Questions 178
References 179

10. Freight Movement Study 181–196
10.1 Introduction 181
10.2 Problems and Issues of Freight Movement in Urban Areas 182
10.3 Land Use and Freight Transport Planning 183
10.4 Management for Logistics 184
10.5 Approaches Towards Strategies and Policies 185
10.6 Transport Models for Goods Traffic 187
10.6.1 Factors Affecting Goods Movement 187
10.6.2 Components of Urban Freight Traffic 188
10.6.3 Classification of Freight Demand Models 188
10.7 Data Needs for Freight/Goods Modelling 191
10.8 Transport Studies to Assess Goods Traffic 192
10.8.1 Truck Operator Study 192
10.8.2 Goods Transport Study 193
Summary 194
Review Questions 195
References 196

11. Long-term Transport Planning 197–213
11.1 Introduction 197
11.2 Long-term Urban Transport Planning 200
11.3 Planning for Public Transport 202
11.4 Forecast of Planning Parameters 202
  11.4.1 Population 202
  11.4.2 Employment 205
  11.4.3 Car Ownership 205
  11.4.4 Income 206
11.5 Implementation 207
  11.5.1 Plan for Implementation 207
  11.5.2 Availability and Arrangement of Financial Resources 207
  11.5.3 Organisation and Management 209
  11.5.4 Prioritisation 210
  11.5.5 Monitoring and Review 210
Summary 211
Review Questions 211
References 212

12. Regional Transportation Planning 214–230
12.1 Introduction 214
12.2 Objectives of Regional Transportation System 215
12.3 Regional Transport Planning 215
12.4 Passenger and Freight Movements 216
12.5 Transport Models 217
  12.5.1 Trip Generation Model 217
  12.5.2 Gravity Model 218
12.6 Other Models for Regional Planning Studies 218
  12.6.1 Linear Programming Approach 218
  12.6.2 Simulation Model 218
  12.6.3 Econometric Modelling 218
  12.6.4 Input-Output Model 223
12.7 Development Scenarios 225
12.8 Transport Network Alternatives 225
12.9 Evaluation of Alternatives and Selection of Best Alternative 225
12.10 Implementation and Coordination of Regional Transport Plan 227
12.11 Rural/Regional Network in the Country 228
  12.11.1 National Highways 228
  12.11.2 State Highways 229
  12.11.3 Expressways 229
  12.11.4 Major District Roads 229
  12.11.5 Other District Roads 229
  12.11.6 Village Roads 229
Summary 229
Review Questions 230
